

## Secure and Protect Healthcare Records

It is a true challenge for healthcare organizations to maintain quality patient care while containing costs. In addition to the demands to deliver the highest quality patient care, healthcare providers need to be constantly mindful of operational efficiencies to help contain growing medical costs. Medical practitioners need instant access to the latest and most correct patient information, multiple doctors' offices want the means to collaborate efficiently and administrators are tackling an overwhelming explosion of insurance and billing documents.

Document management solutions have assisted healthcare organizations reduce paper record storage costs and achieve 100% compliance - patient information security, information audit trail, HIPAA, DEA and Sarbanes-Oxley.
